

EARTH DAY SPECIAL ASSEMBLY- GRADE I A – A REPORT

On **Monday, April 20, 2026**, the students of **Grade I-A** conducted a special assembly in the school auditorium to celebrate '**Earth Day**'.

The assembly commenced with a soulful prayer and the Gayatri Mantra, followed by the 'Thought of the Day' which emphasized that nature is a precious heritage we must protect. The centrepiece of the event was a dramatic skit titled "**The Climate Action Court**," which featured a heated debate between Mother Earth's elements and careless humans. During this debate, the "Tree" expressed the tragedy of being chopped for selfish needs, while the "Ocean" lamented being filled with plastic instead of fish. The "Humans" initially displayed a humorous but cavalier attitude, boasting about big cars and leaving lights on, but the "**Judge**" and the "**Climate Lawyer**" highlighted the severe damage caused by these "cool" habits. The interaction reached a turning point when the humans realized that their own survival depended on the health of the planet, leading to a collective pledge to take immediate climate action through recycling and energy conservation. The skit, thus, successfully delivered an impactful message about conserving forests for our future.

The assembly drew to a close with a thought-provoking address by the Head of School, Ms. Nandita Mathur, who encouraged students to embrace their role as custodians of the future. The event concluded with the National Anthem.
