

'LABOUR DAY' SPECIAL ASSEMBLY: GRADE I-B – A REPORT

On Thursday, April 30th, 2026, the learners of Grade I B presented an engaging and meaningful special assembly, "The Gratitude Journey" to commemorate 'Labour Day'. The assembly beautifully highlighted the values of gratitude, respect, kindness, and appreciation for all workers who contribute to our daily lives.

The assembly began with a warm welcome, followed by a heartfelt prayer that created a calm and reflective atmosphere. This was followed by the News segment, which included national, international, sports, and weather updates, helping learners stay informed and present confidently.

The Thought of the Day emphasized that every worker plays an important role and deserves respect, while the Word of the Day, 'Gratitude', encouraged learners to be thankful and appreciative towards others.

The highlight of the assembly was the skit "The Gratitude Journey," which followed an observation to realisation approach. Through simple yet expressive dialogues, children discovered the importance of various helpers. Their interactions with the class nanny, gardener, guard and other support staff, beautifully conveyed the message that every role is valuable and deserves respect. The skit effectively promoted empathy, appreciation, and kindness in a relatable manner.

The quiz segment that followed was interactive and engaging, reinforcing the key message of the skit and encouraging participation.

The assembly concluded with a message that inspired everyone to show gratitude, respect all workers, and practise kindness in their daily lives. The programme ended with the National Anthem.

Overall, the assembly was a well organised and enriching experience. It provided learners with opportunities to develop confidence, teamwork, expression, and a deeper understanding of values such as respect and gratitude. The presentation left a positive and lasting impact on everyone present.
