

STUDENT COUNCIL ELECTIONS 2026-27

- A REPORT

'Democracy is not something that happens, you have to make it happen.'

— Noam Chomsky

To foster an understanding of democratic values and nurture responsible citizenship, Suncity School conducted the Student Council Elections 2026 for students of Grades III and IV. The initiative provided young learners with a meaningful, real-life experience of participation, informed choice, and leadership, encouraging them to engage actively in the democratic process.

Organized in April 2026, the elections were carefully structured to ensure maximum student involvement. The first phase of the process

involved the submission and shortlisting of written nomination forms and manifestos, through which students expressed their leadership qualities, ideas and vision. This stage encouraged them to reflect on their strengths, such as confidence, written communication, and decision-making skills, while also fostering self-awareness and a sense of responsibility.

The next phase brought a vibrant wave of enthusiasm as shortlisted candidates began their campaigns. From creating eye-catching posters to sharing their ideas with classmates, students actively expressed their vision. The highlight of this stage was a special assembly where each candidate confidently addressed the audience, presenting their goals and ideas with clarity and

conviction. The students were also highly motivated and appreciated by the the Head of School, Ms. Nandita Mathur, for their efforts, creativity, and confident presentations during the campaign and speeches.

The voting process added authenticity to the experience, as students participated responsibly in selecting their representatives. This was followed by an interaction round with the Head of School and a panel of teachers, ensuring that the final selection reflected both student choice and overall capability.

More than just an election, this initiative became a powerful learning journey. It helped students find their voice, understand the importance of fair choice, and develop a sense of accountability. The Student Council Elections truly reflected the school's commitment to shaping confident, aware, and responsible future leaders.

STUDENT COUNCIL POST HOLDERS (2026-27)

**Junior Head Boy
Kiyaan Bhatia
(IV-B)**
